

RAMMSTEIN

Product information Rammstein Logo Wall shelf *MDF black*

- Material:** The material used is a medium-density fiberboard from the board manufacturer FINSA with the designation "Fibracolour".
- Characteristics:** "Fibracolour" is a product containing non-toxic water-based pigments with a low concentration of formaldehyde is produced. Therefore, it guarantees a perfect and safe coexistence with the environment and is an ideal alternative for use in closed spaces.
The material is not resistant to humidity and is not suitable in any form for damp rooms or climatically stressed areas. Avoid exposing the panels to different humidity and temperature conditions for each of their sides. This can lead to warping of the material if not taken into account.
High-strength natural pigments are used in production, but direct sunlight should be avoided to prevent discoloration.
- Surface treatment:** All visible surfaces are treated with AURO Disposable oil wax No. 125
- Cleaning:** Use water only to bind dust. Only use non-abrasive cleaning materials (no active or microfiber materials).
- Maintenance care:** Depending on the final coating with e.g. AURO Floor care No. 437*, Floor care emulsion No. 431* or Wood floor Cleaning and care No. 661*.
- Refreshing:** Depending on the final coating, use e.g. AURO Disposable oil wax No. 125* or Care Wax No. 107*.

Fixing the shelf

- Fasteners.** The enclosed fasteners are very versatile. However, the basic inspection in connection with the condition of the wall is the responsibility of the buyer.
A liability for this is excluded in any case.
- Loads:** The shelf can be loaded with a total of 10 kg.
Point loads are to be avoided.
